OPPOSED

1. HB 2114/SB 5961 – Rent Control

- Rent increases are limited to a maximum of 5% in a 12-month period.
- No rent increases shall be served in the first 12 months of tenancy.
- Rent increase over 3% would require 180 days’ notice.
- Limits total move in fees to one month’s rent and caps late fees at \$10.
- Tenant can break lease any time with 20 days written notice if rent increase is over 3%.
- Ban on offering a discount for fixed term leases v. month-to-month.
- Mandatory damages of three months’ rent and attorney fees/costs and can use as defense to eviction.
- Exempts not for profit housing and new construction for the first ten years.
- No mechanism to increase by more than 5% in event of factors outside housing providers control - unconstitutional under current SCOTUS case law.
- Bill has an emergency clause that permits immediate implementation of the bill requirements.

House Substitute Bill:

- Removes a provision allowing tenants to break their leases any time after receiving a 180-day notice that their landlord intends to raise their rental rate by 3% or more within a 12-month period.
- Adds a provision that tenants may break their leases, with notice, any time after a landlord raises their rental rate beyond what is allowed under the bill without falling under any of its exemptions.
- Raises the percentage cap on how much landlords are allowed to raise rents in any given 12-month period from 5 to 7 percent.

- Changes the cap on late fees from \$10 dollars a month to 1.5 percent of the tenant's total monthly rent.
- Adds exemptions from the rental rate increase limit for several living situations where the owner is also a resident of the property in question.

Senate Substitute Bill:

- ~~Rent cap for Residential Landlord-Tenant Act & Manufactured/Mobile Home Landlord-Tenant Act increases from 5% to 15%, with authorization for local governments to require a percent lower than 15%.~~
- ~~Exemption for new construction increases from 10 years to 15 years.~~
- ~~Sunsets the Act in 2044.~~
- ~~Requires the Joint Legislative Audit Review Committee to conduct a performance audit review of: eviction rates, number of dwelling units taken off the market and for what purpose, rate of investment and new construction, and update on Attorney General's Office oversight and report to the Legislature January 1, 2042.~~
- ~~Clarifies disputes related to rent stabilization for manufactured homeowners are subject to the consumer protection act process outlined in the bill and not the manufactured/mobile home dispute resolution program.~~
- ~~Clarifies language around the public housing authority exemption.~~

STATUS SB: **DEAD** – Senate Housing Committee

2. SB 6136 – B&O Tax or Rent Control on Commercial & Residential Rents

- **Unconstitutionally requires** all property owners to **decide between paying B&O tax or agreeing to rent control.**
- Adds business and occupation tax (**B&O**) to rent for all residential and commercial property. The tax on residential rental property begins January 1, 2025. The tax on commercial rental property begins January 1, 2027.
- Directs Commerce to develop and administer residential rent control program that **requires 5% rent control.**
- Directs Commerce, AG, DOR, and others to develop recommendations for a rent stabilization program for commercial rental property.
- Creates a B&O tax deduction for landlords participating in the rent control programs.

Talking Points:

- Tax on rents is Unconstitutional according to a WA Supreme Court ruling (Schumacher 1960).
- Taxing rents would ultimately increase rents and housing costs for residential and commercial tenants.
- At a time when commercial real estate is already down because of employees working from home and high interest rates, this would cause damage to the industry.

Substitute Bill:

- Removed the Rent Control provision.
- Makes the privilege of providing all commercial & residential property for rent subject to the business and occupation tax.

STATUS SB: Senate Ways & Means Committee (NTIB)

3. HB 2276/SB 6191 – Increasing Taxes on Real Estate Sales (REET/RETT)

- Increases the tax on the sale of property over \$3M by adding a 1% Real Estate Transfer Tax (RETT) to the existing 3% Real Estate Excise Tax (REET).
- Beginning January 1, 2025, the rate of the tax imposed is as this follows:
 - 1.1% of the portion of the selling price that is less than or equal to \$750,000;
 - 1.28% of the portion of the selling price that is greater than \$750,000 and equal to or less than \$1,525,000;
 - 2.75% of the portion of the selling price that is greater than \$1,525,000 and equal to or less than \$3,025,000; and
 - 3.0% of the portion of the selling price over \$3,025,000, **PLUS 1.0% RETT tax**
- Only 7% of REET and RETT revenues shall go as follows:
 - 25% to the Washington State Housing Trust Fund
 - 25% to the Apple Health and Homes Account
 - 15% to a new Developmental Disabilities Trust Account
 - 25% to the Affordable Housing for All account
 - 10% to the new Housing Stability Account.

Talking Points:

- WA State already has the highest REET tax in the nation, adding RETT to REET would make WA State 33% higher tax than any other state on the sale of property.
- Increasing taxes on the sale of property will increase rents and housing costs for residential and commercial tenants.
- At a time when commercial real estate is already hurting because interest rates have increased dramatically and many companies are working from home, this would cause damage to the industry.

**4. HB 1589/SB 5562 - Banning Natural Gas through PSE
Original Bill**

- Prohibits gas companies serving more than 500,000 retail natural gas customers in Washington from extending gas service after June 30, 2023.
- Requires a large gas company to file a gas decarbonization plan as part of a multiyear rate plan on or after January 1, 2026, and every four years thereafter, with the aim to achieve the company's proportional share of greenhouse gas emission reductions required under state law.
- Requires a combination utility to file an electrification plan as part of a gas decarbonization plan on or after January 1, 2026.
- Directs the Utilities and Transportation Commission to establish cost targets for gas decarbonization and electrification plans, approve plans that are in the public interest, and adopt depreciation schedules, and a single energy rate base in certain instances.
- Encourages electric utilities to work with large gas companies providing gas service within their service areas to identify opportunities for electrification and providing energy peaking service.

Amended Bill

- Modifies the definition of "electrification" to "the installation by a combination utility of electric end-use equipment provided that installation:
 - o Will result in a net reduction in statewide greenhouse gas emissions over the life of the equipment as compared to the most efficient commercially available natural gas or alternative energy resource alternative; and
 - o Reduces the sales of natural gas by the large gas company. Electrification programs of a combination utility may include, but are not limited to, programs that facilitate deep energy retrofits or the installation of electric air-source heat pumps with gas backups in existing buildings.
 - o However, electric air-source heat pumps with gas backups may not be part of any plan filed pursuant to section 4 of this act [electrification plans]."
- Modifies the definition of "emissions reduction period" to mean "one of four periods of five calendar years each, with the four periods beginning on January 1st of calendar years 2030, 2035, 2040, 2045, and 2050, respectively."
- Adds language to provide that the terms of a gas decarbonization plan filed by a large gas company shall be binding on any entity that subsequently acquires an ownership interest in all or part of the large gas company's gas storage, transmission, or distribution network.
- Requires that an electrification plan be filed by a large gas company, rather than a combination utility, as part of a gas decarbonization plan.
- Provides that the Utilities and Transportation Commission (UTC) may, rather than must, require a large gas company to achieve the maximum level of greenhouse gas emissions reductions practicable using alternative energy resources at or below the applicable cost target.

Amended Bill in Senate Environment Committee

- Directs that until January 1, 2035, the prohibition to extend gas service in section 2 does not apply to residential facilities that use natural gas solely to supply generators for the purpose of providing emergency power during an energy supply emergency declared by the governor or during a loss of electrical service. Requires the natural gas company to include this limitation on use in its tariff.
- Authorizes the utilities and transportation commission (UTC) to extend the deadline by an additional two months for a decision in the first multiyear rate plan proposed by a combination utility, following approval or approval with conditions from the UTC of an initial integrated system plan.

Talking Points:

- Recent action of the State Building Code Council did not include an outright ban on natural gas.
- Prohibiting new natural gas for housing will increase the cost of new middle housing between \$6,200 to \$13,100 more per unit. This doesn't include the annual operating costs of using natural gas which is one third of the cost of electricity.
- This bill negatively impacts independent grocers and convenience stores. These stores often rely on natural gas to run refrigeration systems and to offset expensive electrical costs for stores that must have these systems running at certain temperatures at all times, to comply with the health code. The costs for running new grocery stores may exceed what people are willing to pay in food costs, increasing the possibility of food deserts in Washington State.
- In some areas where there is not adequate electrical infrastructure to serve new construction a requirement exists for natural gas to be provided in the land deeds for the undeveloped lots. If this bill were to pass the families who have purchased these lots will not be able to build a home, and their investment could be lost.
- If new natural gas connections are prohibited, it will result in significant cost impacts for struggling hospitality businesses, as the demand for rent for the spaces with existing natural gas service will skyrocket. Rents may become unaffordable for small, locally owned family businesses.
- Many Washington homeowners in the Puget Sound region need access to natural gas in order to have fireplaces and other supplemental heating devices during power outages. They may not have the ability to have woodstoves or woodburning fireplaces because of air quality ordinances.

5. SB 5770 – Property Tax

- Increases the property tax revenue limit for local property taxes. Currently property tax increases are limited to 1% increases (limiting factor) annually.

- This bill would increase the property tax limit from 1% to 1% plus population change and CPI, up to 3% annually.
- CPI is based on the CPI(U) for the Western region as of July 25th each year, provided by DOR to the County Assessor for use.
- Applies to 2024 tax collection and thereafter

Talking Points:

- This will increase the cost of providing housing.
- Property tax increases often drive necessary increases in residential and commercial lease rates for tenants.
- The general public does not support increases in property taxes.

Technical corrections made in Senate Ways and Means Committee still to come.

8. HB 2323/SB 6212 – RLTA Mandatory Credit Reporting

- Requires landlords under the RLTA & MHLTA to report on-time rental payments to a national consumer reporting agency on request of a tenant.
- Landlords are NOT required to report late or missed payments.
- No federal law currently requires landlords to report rental payments of any sort to any national CRA's.

- Landlords must keep records sufficient to demonstrate that they have reported tenant's rental payment information as requested, and they must provide documentation of this reporting upon request by a tenant.
- A landlord's duty to report rental payment information terminates automatically at the end of a lease, or when a lease reverts by default to a tenancy month-to-month without prior agreement of the parties.

9. HB 2270 – Creates WA State Department of Housing

- Directs the Office of Financial Management (OFM) to contract externally for a study to help facilitate the transition of state housing programs to a new state agency and identify gaps in current state housing programs.
- The study must include a review and recommendations on the following issues:
 - A clear mission and vision for the new department;
 - The organizational structure for the new department, including which agencies,
 - Administrations, commissions, or other functions of state government should be included, and identification of the reasons why a specific housing function or program is not recommended for inclusion, if any;
 - Any gaps in existing rental, transitional housing, senior housing, homelessness, homeownership, and manufactured housing programs provided by the state;
 - Estimated costs for the reorganization, including information technology and capital, and potential funding sources;
 - A clear process for managing the reorganization; and measurable benchmarks by which the effectiveness would be assessed.
- Requires that the external consultant engage with and get recommendations from a long list of stakeholders including the for-profit rental housing owners and for-profit housing development industry.

House Appropriations Amendment:

- A null and void clause is added, making the bill null and void unless funded in the budget.

CONCERNS

1. SB 6152 – Measuring the Housing Gap

Proposed Substitute

- Requires the Washington Center for Real Estate Research to include, as part of its October 2026 report and every biannual report thereafter:
 - An analysis of each county's progress in closing the gap between estimated existing housing units and existing housing needs including 0-30%, 30-50%, 50-80%, 80-100%, 100-120%, and >120% of AMI.
 - Each county's progress in closing the gap between existing housing units and existing housing needs within the county.
 - Each county's progress in meeting emergency housing, emergency shelters, and permanent supportive housing needs within the county.
- Authorizes the Public Works Board to consider whether a project encourages infill development or any other increase in affordable housing units when prioritizing applications for grants and loans to cities and counties.

SUPPORT

1. HB 2453 – Housing Gap Voucher Program

- Immediate Rental Support for families and those in need, up to \$400 per month for up to 24 months.
- Creates the Housing Gap Voucher Program administered through the county housing authorities.
- Qualifications for Housing Gap Vouchers:
 - Household income at or below 80% AMI;
 - Household spends more than 30% of monthly household income on housing costs; and

- If their rent were reduced by \$400 or less, the renter would be under the 30% of monthly household income on housing costs.
- Priority will be given to those households under 60% AMI or who receive supplemental security income.
- Beginning in 2025, Commerce shall submit a report annually to the legislature detailing the financials of the program and any suggested improvements.

2. HB 2425 – Rental Support Program

- Immediate Rental Support for families in need.
- Recipients must be low-income, with **priority** to seniors on fixed income, disabled persons, historically marginalized communities, single parents, and veterans.
- To be funded by redirecting 0.5% of current sales tax on new residential construction, funds generated go to the local jurisdictions who built the new residential construction (current tax, no new tax)
- May be kickstarted by a loan from the municipality or legislature through appropriations.
- Allow low-income families to rent available units when units at or below 30% of their income are not available.

3. HB 2464 – Encouraging New MH Communities and New Units in Existing MHC

- Allows new manufactured housing communities to be built outside the urban growth boundaries to encourage new communities to be built.
- Requires cities and counties to act in good faith to approve additional manufactured housing.
- Requires cities and counties to allow new manufactured housing units to be added to existing parks unless the siting of the manufactured/mobile home or park model expressly violates health and safety standards.

Sponsors: *Representatives Connors, Peterson*

STATUS HB: House Rules Committee

4. SB 6211 – Creating Clarity and Consistency in Rental Agreements

- Currently rent increases for MHC's may only be given on the anniversary date with 90 days' notice.
- This bill would mandate that rent cannot be increased more than once in any 12-month period by providing 90 days' notice, but this would no longer be tied to the anniversary date.

- Would allow MHC's to get all residents onto the same renewal date if desired.
- Promotes fairness as timing for rent increases could be the same for all residents if desired.

- Provides an additional working families' tax credit refund amount of \$300, adjusted annually for inflation.
- Provided to an eligible person who leased or rented their primary residence in Washington for at least 183 days.
- The 183-day period may be met by aggregating the leasehold or rental periods for multiple lease or rental agreements if the individual changed location during the calendar year.
- An individual must be a signatory on any lease or rental agreements used to meet the 183-day requirement.
- Applicants must submit a copy of the lease or rental agreement and any other documents specified by the department to substantiate the eligibility.

7. HB 2419 – Homeowner Relief Property Tax Exemption

- Creates the homeowner relief property tax exemption.
- The exemption (from the state levy) is equal to the greater of \$100,000 assessed valuation or 60% of the county median residential assessed value for the most recent year.
- Each county assessor must also make applications available at the assessor's office, on the assessor's official website, and by mail or email upon request.

- Tax exemption is only available on 1 qualified residence per applicant.
- The homeowner relief property tax exemption continues until the property is sold, transferred, or the claimant no longer qualifies due to change of use as a principal place of residence.
- If a homeowner sells or otherwise transfers the property, the new property owner must apply for the exemption, as required under this section.
- The homeowner relief property tax exemption administration account is created in the state treasury and will attempt to backfill the amounts lost by counties.

8. HB 2308/SB 6175 – Housing Affordability Tax Incentives for Existing Rentals

- Authorizes city governing authorities to establish a property tax exemption program for properties which are converted into buildings that contain affordable housing units for low-income households.
- To qualify for a property tax exemption for **multiunit residential building conversion** into affordable housing under this chapter, housing units must:
 - Be a multiunit residential building;
 - Have a certificate of occupancy issued not more than 25 years prior to the effective date of this section; and
 - Be in possession of the owner or be acquired by using a loan from a lender overseen by the United States federal housing finance agency.
 - The lender or servicing agency must have oversight over the conversion, including quarterly reports verifying affordable housing units are being rented or sold to low-income households.
- To qualify for a property tax exemption for **conversion of a commercial building** to affordable housing under this chapter, housing units must:
 - Be a building whose immediate prior use was predominantly or exclusively for commercial use; and
 - Have a complete project permit application submitted to the city or county prior to January 1, 2029.
- For residential conversions, the value of real property qualifying under this chapter is exempt from ad valorem property taxation for 20 successive years.
 - For the first 10 years, the exemption amount is equal to 100% of the value of the residential building.
 - For the second 10 years, the exemption amount is equal to 50% of the value of the residential building.
- For commercial conversions, the value of real property qualifying under this chapter is exempt from ad valorem property taxation for 30 successive years.
- The exemption in this chapter excludes land and non-housing related improvements.

Proposed Substitute House Bill (H-3132.1) compared to the Original Bill:

- Removes the property tax exemption program;

- Creates a sales and use tax deferral program for the following:
 - The sale or charge made for tangible personal property incorporated as a component in the building that is converted from a commercial building into affordable housing; and
 - Labor and services rendered for the entire building during the conversion of a commercial building into affordable housing;
- The program requires the property owner to commit to 20% of affordable housing units for at least 10 years;
- Adds administrative language and various procedural requirements for cities and the Department of Revenue; and
- Makes various technical changes.

Proposed Substitute Senate Bill Effect:

- Removes the authority of a city to establish a property tax exemption program for commercial buildings converting to affordable housing units for low-income households, the state retail sales and tax exemption for materials and labor used in the conversion of a commercial building to affordable housing, and other related provisions; adds a new retail sales and use tax deferral program for the construction of underutilized commercial property;
- Allows any city or town to offer the retail sales and use tax deferral program;
- Specifies that the tax deferral applies only to the conversion of underutilized commercial property to affordable multifamily housing;
- Provides that the exemption is a 10-year deferral of state and local retail sales and use taxes;
- Provides that if an applicant maintains the property as affordable housing for the 10-year period then the deferred taxes need not be repaid;
- Requires applicants to rent or sell at least 20 percent of the housing units as affordable housing to very low, low, and moderate-income households;
- Requires at least 50 percent of the multifamily housing units be rented at or below fair market rent for the county or sold at a price at or below county median price;
- Allows local governments to require applicants meet additional affordability or income eligibility conditions; provides that no deferrals may be approved on or after June 30, 2034;
- Includes a tax preference performance statement requiring the Joint Legislative Audit and Review Committee to conduct a review by December 31, 2032;
- Specifies that a recipient of the retail sales and use tax deferral may also qualify for the multifamily property tax exemption; and amends the title and intent section.

WLA 2023 Priority Bills (Alive but NO action yet in 2024)

1. HB 1628 - Highest State REET Tax in America on Properties Over \$5 Million

Original Bill

- Would create a new tier in the state graduated REET Tax that would be the highest REET Tax in America on sales over \$5 million.
- The REET Tax would be 4% of the selling price that is greater than \$5 million, beginning January 1, 2025.
- The REET Tax shall be split as follows:
 - 30% to the Washington housing trust fund created in RCW 43.185.030;
 - 30% to the apple health and homes account created in RCW 43.330.184;
 - 15% to the developmental disabilities trust account created in the bill.
 - 24% to the affordable housing for all account created in RCW 43.185C.190 for operations, maintenance, and service cost for permanent supportive housing as defined in RCW 17 36.70A.030.

Amended Bill

- Allows counties and cities that impose the new real estate excise tax for use on capital construction or acquisition of affordable housing costs of new units to also use tax revenue for infrastructure costs associated with such housing and facilities.
- Allows counties that are not required to plan under the Growth Management Act, but that have chosen to do so, and the cities within those counties, to impose the second 0.25 percent local government real estate excise with councilmanic authority, rather than with voter approval beginning on January 1, 2024.
- Allows revenue from the 1st and 2nd 0.25 percent local government real estate excise tax to be used for any capital projects, maintenance, operations and service support for existing projects.

Amendment in House Finance Committee HB 1628 (H-1928.3/23):

- Beginning January 1, 2025, increases the “ceiling” for the Tier 1 1.1% state REET tax from \$525K to \$750K. As a result, Tier 2 (1.28%) will be \$750K to \$1.525M.
- Beginning January 1, 2025, increases the state REET rate for Tier 4 (selling price over \$3.025M) from 3% to 3.5% except for commercial property. Commercial property will pay 3% on selling price over \$3.025M through December 31, 2026. The new 3.5% will take effect for commercial property beginning January 1, 2027.
- Removes the creation of Tier 5 for selling prices above \$5M.
- Provides a definition for “Commercial property”
- Replaces increment calculation for distributions of revenues with a new percentage calculation to all accounts.
- Requires at least \$5M per fiscal year of the state REET revenues deposited into the Washington House Trust Fund be used for farmworker housing.
- Additional directions for the use of moneys in the Developmental Disabilities Housing and Services Account are added.

Talking Points:

- Would create a new tier in the state graduated REET Tax that would be the **highest State REET Tax in America** on sales over \$5 million.
- Costs are already increasing for small housing providers, this will create even more burden on these small businesses and will lead to less housing.
- Increased REET Taxes will discourage housing investment and development in Washington State, increasing rents, and worsening our housing crisis.
- WA is becoming less desirable and less competitive for real estate investment. There are 15 states that do not charge real estate excise or transfer taxes at all. In addition, WA is one of 23 states that also allow a local option real estate excise or transfer tax on top of that. The higher our WA fees, the more likely to drive investment to other states.
- Commercial real estate has taken a lot of financial hits during the pandemic and is still recovering, enacting the nation’s highest REET tax would not allow that recovery.
- With many companies still not back to work in the office, adding this extreme REET tax to commercial properties will only exacerbate that problem.
- Higher taxes and increased administrative burden have proven to consistently drive real estate investment out of the market and likely increase rental prices.

2. HB 1388 – Rent Control – Protecting tenants by prohibiting predatory residential rent practices and by applying the consumer protection act to the RLTA and MHLTA
Original Bill

- Applies to both residential housing and manufactured home communities.

DEAD

Chet Baldwin
Attorney/Lobbyist
chet@lobbywa.com

- Prohibits a landlord from increasing rent more than the rate of inflation (CPI-U) or 3%, whichever is greater, up to a max of 7% above rent if the rent increase:
 - Is not justified by costs necessary to maintain the dwelling unit
 - Is substantially likely to lead to the displacement of the tenant, or
 - Is used to avoid other tenant protections.
- Rent increase provisions do not apply to:
 - Dwelling units that are less than 10 years old.
 - Tenancies for which the landlord is required to reduce rent to 30% or less of the tenant's income because of a federal, state, or local program or subsidy.
- Creates a private cause of action for a tenant to recover actual damages, punitive damages equal to 3 months' rent and fees, and reasonable attorneys' fees and costs.
- Provides that a violation of the RLTA or MHLTA is a violation of the Consumer Protection Act.
- Prohibits charging a higher rent or including terms of payment or other material conditions in a rental agreement that are more burdensome to a tenant for a month-to-month rental agreement than for a longer-term rental agreement.
- Authorizes the Attorney General (AG) to:
 - Investigate practices that violate this section. When investigating, the AG may consider, in addition to any other relevant information:
 - The condition of the unit, including outstanding repair issues, maintenance costs other than for upgrades, property taxes, etc.;
 - Whether a rent increase was issued to evade protections afforded to tenants; and
 - Whether a rent increase will result in the displacement of the tenant or household.
 - Issue a cease-and-desist letter to prevent predatory practices that violate this section. If the recipient does not comply within five calendar days, the AG may file an action in court with a civil penalty up to \$10,000 per ;
 - Imposes a civil penalty of no more than \$25,000 per violation.
- Requires Commerce to calculate and publish the maximum annual rent increase percentage on September 30, 2023, and on each following September 30th.
- Includes an emergency clause and an immediate effective date.

Amended Bill

- Removes references to "predatory" prohibited practices rather than prohibited predatory practices.
- Revises the prohibition on excessive rent increases such that a landlord may not rent or seek to rent a dwelling unit at an excessive rent, if such rent increase is:
 - Beyond the amount reasonably necessary to maintain or improve the dwelling unit; and is
 - Substantially likely to cause the tenant or household to move or involuntarily relocate from the home; or

- Is used as a means to avoid other protections afforded to tenants under the RLTA, the MHLTA, or any other applicable law.
- Revises the exemption for tenancies in new buildings from 10 years or less to 12 or less years.
- Revises the provisions related to the Attorney General's investigation authority to clarify the types of civil investigative demands that the Attorney General may issue.
- Revises the provisions related to the Attorney General's enforcement authority to clarify that the enforcement authority for the cease-and-desist letter is separate from the general enforcement authority for the bill
- Makes clear that the Attorney General's enforcement is not a prerequisite for a tenant to bring a private action against a landlord.

3. HB 1389/SB 5435 – Rent Control - Concerning residential rent increases under the residential landlord-tenant act and the manufactured/mobile home landlord-tenant act.

Original Bill

- Applies to both residential housing and manufactured home communities.
- Prohibits a landlord from increasing the rent more than the CPI-U or 3%, whichever is greater, up to a maximum of 7%. Commerce is required to calculate and publish the maximum annual rent increase percentage.
- Contains a VERY complicated "banking" process to carry forward the ability to give an increase later if not given in that year.
- Prohibits a landlord from increasing the rent in the first 12 months of a tenancy.
- "Rent increase" is defined to include any new charges added to a rental agreement that were not identified in the initial rental agreement. For example, new parking, utility, or other charges.
- Requires a landlord that increases rent above the limit to include facts supporting the exemption in the written notice of the rent increase.
- Creates a private cause of action for a tenant to recover actual damages, punitive damages equal to 3 months' rent, and reasonable attorneys' fees and costs.
- Provides the following exemptions from the maximum annual rent increase limit:
 - Dwelling units that are less than 10 years old;
 - Tenancies for which the landlord is required to reduce rent to 30% or less of the tenant's income because of a federal, state, or local program or subsidy;
 - If a landlord has paid for improvements costing more than 4 months' rent...
 - If a landlord is experiencing significant hardship in complying with rent control due to a disparity between the local costs for providing housing and

the statewide costs, the landlord may request an individual exemption from Commerce.

Amended Bill

- Modifies the definition of "rent increase" to remove the list of examples.
- Revises the exemption for tenancies in new buildings from 10 years or less to 12 or less years.
- Limits the use of banked capacity to a 10% annual rent increase. Remaining banked capacity may be retained for potential use in future years.
- Under the banked capacity program if a tenant voluntarily moves out and the landlord chooses to charge the new tenant the same or less than the amount of rent that the landlord charged the previous tenant, the landlord may retain any banked capacity that was accrued under the prior tenancy.

- Would allow every Local Government to create a different local rent control policy; that could mean **more than 450 different local rent control policies across WA State.**
- There is no floor to what a city could impose under local rent control including denying any increase whatsoever to housing providers.
- The desperate need for "Middle Housing" solutions shows that cities have not found solutions for housing, why should we trust them with local rent control?

5. SB 5697 – Mobile Home Park Rent Control

- Applies only to Manufactured Housing and it has added the UTC as the governing "rent control board" instead of the "Department of Commerce."
- Purports to authorize the utilities and transportation commission (UTC) to regulate the rates and services of all persons engaging in the business of acting as a landlord for a manufactured home community/mobile home park.

- Amends RCW 59.20.
- Adds a definition of consumer price index which references the West Region index published in September of the current calendar year.
- Caps annual rent increases as follows (Section 2 (1) (a) and (b)):
 - No increase during first 12 months of tenancy
 - At any time after the first year, increase may not exceed an amount greater than the rate of inflation as measured by the consumer price index
- Contains **vacancy control** in limited situations where the tenancy is terminated by the landlord [landlord terminating a tenancy may not set rent for the next tenancy in an amount greater than the consumer price index].
- Certain exemptions including (a) full decontrol if the tenant leaves voluntarily and (b) a banked capacity program.
- Expressly removes current law that describes leases having a term of 2 years or more; the intent must be to impair all such existing leases and prohibit new ones that do not conform to this bill.

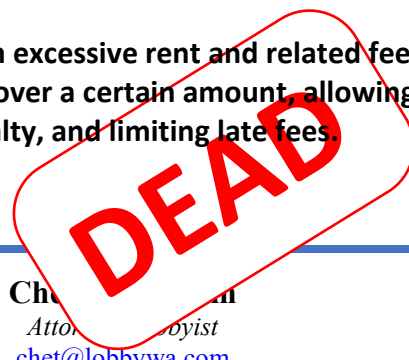

Talking Points:

- Investment in communities will decline and well capitalized buyers will flee. I
- Housing will not be more affordable because supply will decline; no NEW communities or sites will be built.
- Infrastructure & amenities will decline as investment declines.
- Rent Control is unconstitutional; cannot be sustained on stories and anecdotes; No Legitimated state interest is established.
- Housing is impacted nationwide by a lack of supply and decline in building over the last decade; states need to reverse this trend not punish current affordable housing providers.
- Bill demonstrates that rent control is meant to be punitive to current owners of affordable housing communities given severe penalties and new bureaucratic reporting requirements.
- Look at California - decades of rent control have not created affordable housing; just the opposite.
- This bill is punitive rent control - cannot be disguised as utility regulation
- Utilities and transportation commission does not have expertise to regulate housing
- This bill singles out Manufactured Housing community providers over all other forms of housing
- Bill Destroys family owned businesses and value created over generations.

6. **HB 1124 – Protecting tenants from excessive rent and related fees by providing at least six months' notice for rent increases over a certain amount, allowing tenants the right to terminate a tenancy without penalty, and limiting late fees.**
Original Bill

- A landlord may not increase a tenant's rent by more than 5 percent without providing written notice between 180 and 220 days before the increase takes effect.
- The notice must inform the tenant of the tenant's ability to terminate the tenancy without penalty. A tenant who receives notice of a rent increase of more than 5 percent may terminate the tenancy at any point prior to the effective date of the increase by providing at least 20 days' notice for a month-to-month or at least 45 days' notice for a tenancy with a lease, and the landlord must prorate the rent owed to the tenant's move-out date.
- A tenant who is charged and pays rent reflecting an increase of more than 5 percent without receiving the required written notice may recover actual damages in the amount of the excess rent paid and treble damages, costs, and reasonable attorneys' fees.
- A landlord may not charge a tenant a fee for late payment of rent that exceeds \$75 total.

Amended Bill

- Excludes any utility charges in calculating the 5% threshold for requiring landlord notice and tenant ability to terminate a tenancy.
- Changes the bill's limit on late rental payment fees from \$75 total to the lesser of 10 percent of the rental amount, excluding any charges for utilities, or \$75 total.
- Applies the limits on late rental fees to tenancies covered by the MHLTA.

Talking Points:

- This bill is rent control lite
- This bill puts an unreasonable expectation on housing providers to predict the rental housing environment over 180 days in advance.
- The bill incentivizes housing providers to regularly increase their rents and punishes housing providers for not increasing rent each renewal.
- This bill creates a confusing and narrow window to issue a rent increase notice and may conflict with the existing lease term.
- Giving tenants the ability to terminate a lease without penalty, after receiving a rent increase, steps between a private contract between two parties. Tenants would be able to violate or break the lease unilaterally which leaves housing providers concerned if their lease will be upheld.
- Late fees are designed to incentivize tenants to pay rent on time. A nominal fee provides little incentive and invalidates the purpose of the fee.
- A nominal fee allows the tenant to use the landlord as a bank.
- The landlord incurs significant cost to service notices related to past due rent.
